Citation: Heidari A. A Novel Approach to Biology. Electronic J Biol, 12:4

Received: June 20, 2016; **Accepted:** June 24, 2016; **Published:** July 01, 2016

Editor's Note

Biology is the study of living organisms. Electronic Journal of Biology (eJBio) is an online open access international journal encourages publication of articles from all departments of biology. The current issue Volume 12 Issue 3 published articles from various disciplines of biology.

Many research scholars have studied the novel approaches in biology and published their articles in the current issue-volume 12 Issue 3 of Electronic journal of biology.

Galera focused on heterodox concepts in modern evolutionary embryology, 1900-1950 [1]. Joudi et al. [2] genetic diversity and classification of wild arum (Araceae) species using morphological characters in Iran.

Preliminary research on NiR gene associated with regeneration capacity in bamboo was done by Guo et al. [3].

Jangjoo and Hosseini [4] studied the prevalence of iron-deficiency anemia in non-pregnant women of reproductive age (14-45) with anemia in Marvdasht's Shahid Motahari Hospital in 2012-2013.

Heidari focused on nitrogen, oxygen, phosphorus and sulphur heterocyclic anti-cancer nano drugs separation in the supercritical fluid of ozone (O₃) using soave redlich kwong (SRK) and pang robinson (PR) equations [5].

Bhattacharya et al. [6] work on understanding the role of mesenchymal stem cells in infectious diseases: focus on tuberculosis, malaria, sepsis and HIV.

Pundir et al. [7] performed screening of laccase producing fungi from soil samples - an *in vitro* study.

Niaz et al. [8] focused on CYP2D: Brain Enzyme Involved in Induction of Analgesia and Codeine Dependency.

Partovi et al. [9] performed a study on comparing changes of Glu-Alx promoter sequences in Iranian diploid and hexaploid wheat. Sarwar et al. [10] studied

the distribution and current status of amphibian fauna of pakistan: A review. Umarani [11] showed the enhancement of coronary artery blood vessels using digital subtraction angiographic technique. Punduk published his experimental work on aged garlic supplementation improves muscle performance properties in untrained male [12]. Vahdatpour et al. [13] presentation on systematic review of proteins digestion and new strategies for delivery of small peptides.

Chatha et al. [14] a novel enzymatic stripping of Cl reactive black b dyed knitted textiles fabric as an environmentally responsible technology. Zang et al. [15] callus induction and plant regeneration from mature zygotic embryos of *Dendrocalamus asper*. Shokri and Akbari [16] relationship of self-efficacy with life expectancy and death anxiety in elders over 60 years old of resident in nursing homes of Rasht city. Shokhmgar, effectiveness of positive thinking skills into team approach to mental health and self-esteem of student's Torbat-e Jam city [17]. Kheirandish and Kheirandish [18] effectiveness of Lazarus multimodal therapy on well-being and hope among residents of nursing homes. Emadi et al. [19] frequency of cognitive impairment and related factors of post-operative recovery room. Alhasan, radiobiology knowledge level of radiologists [20].
